Revio

Revio Control Panel Range

Key Features
- Labeling, colour, style, language and logos completely customisable
- Printed inserts easily produced to your requirements
- Configuration stored in Non Volatile EEPROM
- Firmware storage in reflashable FLASH memory over iCAN network
- Configurable start up mode
- CE compliant to all relevant standards
- Designed and manufactured to ISO9001:2015 standards

Overview
Revio is a premier range of lighting control panels that combines a simple user interface with superb design, and broad configurability.

Lighting level control is combined with a simple on/off action in one ergonomically simple rotary button control. Separate scene or channel/zone buttons are activated using advanced capacitive touch plates that sit under a clean front surface. Standard or user defined inserts enable Revio to be adapted for virtually any environment and configuration.

Revio is the only lighting control user interface available that allows for simple on/off raise lower control, scenes, and individual zone control within a single gang control.
Button Functions
Scene selection
Scene raise/lower
Channel raise/lower
Toggle on/off
Toggle raise/lower
True off
Open/close (for curtains or blinds)
Raise/lower (for motorized screens)
Task (start/stop a sequence)

Infra Red Receiver - When fitted takes place of bottom button

Mechanical Data
Polycarbonate cover
“Clean” switch, when pressed, allows the control panel to be wiped clean without changing light levels.
All plastic construction with a separate steel chassis that is affixed to wallbox as first fix with the unit attaching to chassis with screws.
Requires NEMA (US Style) backbox
3”h x 2”w x 2.5”d

Electrical Data
Variable fade times programmable from 0.1 seconds to 60 minutes per button.
12Vdc powered direct from iCAN network
Tested to withstand 12kV electro-static discharge without damage or memory loss.
Flash memory for future proof upgradeability.
Connects via Cat5 FTP using terminals

Environmental Data
Temperature Range: 0°C to +40°C
Humidity: 0% - 95% non condensing
