End of Life announcement

iLight portfolio

Date of this End of Life announcement: May 20, 2025.

Signify herewith announces the end of sales of the iLight portfolio as per September 1, 2025 (the "End of Sales Date").

This announcement relates to the complete hardware, software and services portfolio under the iLight brand, of which the currently available products, software and services are described on the [iLight website](.).

After this date, it will not be possible anymore to order or purchase iLight products, licenses or subscriptions to software and services, except as indicated in this End of Life announcement.

iLight Hardware

Delivery dates for hardware products ordered before the End of Sale Date will fall on or before December 23, 2025 as to be planned in consultation with Signify.

Warranty commitments of Signify with respect to iLight hardware products purchased on or before the End of Sale Date, will continue to be honored in accordance with their terms.

For a period of five (5) years after December 23, 2025 (the "Replacement Period"), Signify will use reasonable commercial efforts to offer replacement hardware products for Defective Products (as defined in the [Standard Warranty](.) for iLight Networked and Standalone control products) that have been purchased before the End of Sales Date against the then current price and terms and conditions. The warranty term of any such replacement hardware products will never go beyond the end of the Replacement Period.

Official partners are entitled to ask technical questions about the iLight hardware to System Experts via MyLighting portal as currently. This support will be available for five (5) years after the End of Sales Date.

iLight Software

This End of Life announcement includes all iLight related software, i.e.:
- Device Editor
- Composer
- PlanView
- Enterprise Operate
- PC Operate
- DALI Utility
- TSE Designer
- Broadsword

In respect of the software this End of Life Announcement is an End of Life Announcement as referred to in Signify's

End-of Life Policy as published here: [Policies & Announcements | Signify Company Website](#) and with respect to software terms starting with a capital shall have the meaning as defined therein and where reference is made to "Software Services" in the Policy, the above-mentioned software is referred to.

The Last Date of Support for the software is December 23, 2028. Support is only available at Signify's sole discretion on an ad hoc basis and be limited to:
- Fixing bugs that hamper the software key features
- Response to technical questions by System Experts

Signify Control Offers

Signify remains committed to offering the highest quality and most flexible lighting & space controls for our customers, with our efforts now focussed on our Dynalite and Interact platforms.

Dynalite offers one-to-one options for almost all iLight products, offering broad open-standard support for DALI2, DMX, leading and trailing edge and PWM dimming.

This is accompanied by a wide range of premium design user interfaces, sensing and accessories, as well as broad support for integrations including Bacnet, RS232, RS485, APIs and more.

The platform is being actively expanded, with support for zigbee wireless luminaires, sensors and switches, a refreshed sensor portfolio and Matter integration support coming later in 2025.

Dynalite is supported by a global team of system experts, who are available to assist with training and to support you with the conversion of iLight project designs from to the equivalent Dynalite architecture.

We are actively exploring options for the Dynalite platform to be compatible with iLight for customers, with the intent that existing installations could be extended with Dynalite product. Details will be shared when available.

For more information about Dynalite, please contact your Signify account manager, visit [dynalite.com](#) or email us at [enquiries@ilight.co.uk](#)
